SUMMARY

Full Stack Developer with 3.5 years of experience delivering scalable, high-performance web applications for financial and insurance clients. Proficient in React.js, Redux, TypeScript, Node.js, MySQL, and MongoDB with expertise in API integration, state management, and backend development. Strong collaborator, committed to building user-focused, maintainable, and responsive solutions and delivering solutions in Agile environments.

EXPERIENCE

Tata consultancy and service Ltd. (TCS)

August 2023 - Present

Pune, Maharashtra

Key Projects:

MetLife

Full stack Developer

- Developed RESTful APIs in NestJS to consume internal SOAP services, transforming XML responses into JSON for secure frontend delivery, reducing API response handling time by ~20% compared to the legacy system.
- Frontend developer on the core UI team, building responsive, accessible pages in React.js, Redux, TypeScript, HTML5, and SCSS, achieving ~25% faster page load times than the Struts version.
- Optimized Redux state management with redux-persist for local storage, improving session persistence and reducing redundant API calls by ~15%.
- Built a dynamic subscriber search form with conditional rendering, reducing duplicate record resolution time by ~40% compared to the legacy flow.
- Integrated a chatbot for real-time assistance, improving self-service query resolution and lowering manual support requests by ~20%.
- Leveraged GitHub Copilot to accelerate development, generate clean boilerplate code, and maintain best practices, reducing feature delivery time by ~15%.

KeyBank

Command Center Analyst – Network & Operations Center

19th May 2022 – 31st July 2023

- Monitored large-scale batch job workflows using IBM TWS (OPC), ensuring 99% SLA compliance.
- Resolved job failures (JCL errors, FTP failures, space issues), reducing downtime by 25%.
- Provided L2 support, troubleshooting critical production incidents with cross-functional teams.

INTERNSHIP

Triwits Technologies Pvt Ltd

Full stack Developer Intern

September 2021 – December 2021

Vijayapur, Karnataka

- Built a Food Delivery Web App and Real Estate Mobile App with responsive front-end designs.
- Developed RESTful APIs using PHP (CodeIgniter) and MySQL; integrated using Postman.
- Designed UIs with HTML, CSS, Bootstrap, React Native, and Redux.
